DEDICATION

He can be seen poised at his typewriter in Publications Room 324. He can be heard on our local radio station — WLPO. His influence can be felt in the Caval-Currents section of the Teen-Trib and in many past editions of the Ell Ess Pe yearbook. Mr. Joe Terrando's dedication to the community and to L-P has long been a driving force behind the success of many projects and publications.

Mr. Terrando's educational background includes a Ph. B. from Marquette University and a M.S. Ed. from Northern Illinois University. For many years he has pursued a career in advertising and public relations including jobs at the Daily News Tribune and WLPO radio station. At L-P, Mr. Terrando's contributions will always be remembered. He was active in the referendum effort of 1985 and the success of L-P's 75th anniversary and the 1986 Open House was due partially to Mr. Terrando's hard work. Students at L-P who listened to announcements know his voice but Mr. Terrando is probably recognized as the advisor to the Caval-Currents and Ell Ess Pe staffs.

Teachers and students alike speak highly of Mr. Terrando and his involvement in our school. Ask people at L-P about Mr. Terrando and you'll hear statements like these:

"A man with a marvelous sense of humor who always has a quick answer!"

"Mr. Ell Ess Pe!"

"He works hard and is enthusiastic about every project he's involved in."

"Mr. T always has time to help with any problem."

"A true gentleman!"

"He is genuinely kind."

"Mr. Terrando goes above and beyond the call of duty in everything he does."

It is obvious that Mr. Terrando is a valuable and much loved member of the teaching staff at L-P.

L-P owes much to a man who, for fifteen years, dedicated his efforts to the success of the Ell Ess Pe. The 1986-87 Ell Ess Pe staff would like to give something back to him. This year's yearbook; "Putting the Pieces Together," is dedicated to Mr. Terrando because he, for the past fifteen editions of the Ell Ess Pe, has "put all the pieces together."

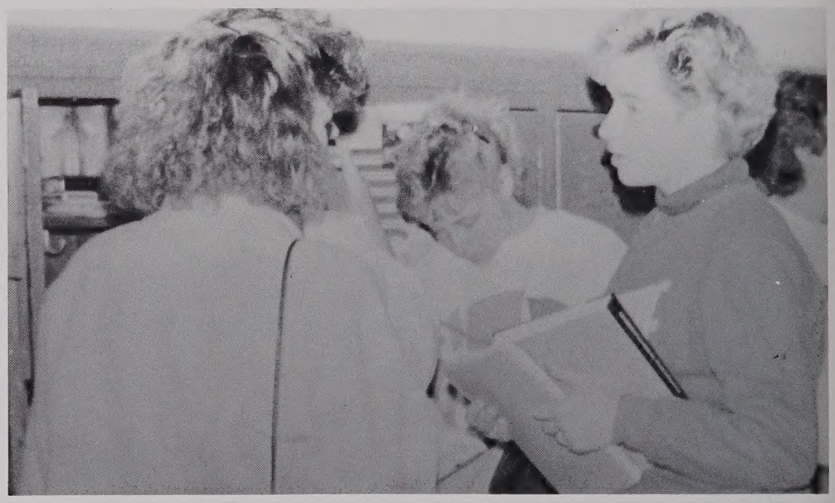
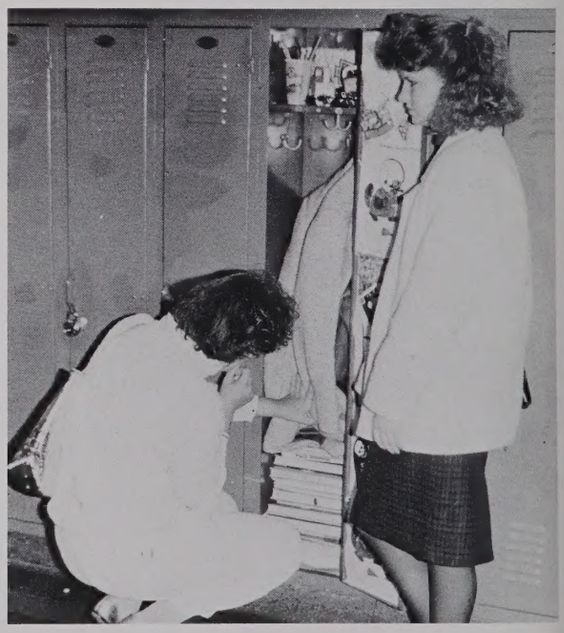
Before School ... And In Between



Rushing to school, combing the hair, chatting with friends, catching that ride and doing the homework that was due for that day but wasn't done the night before are some of the things students find themselves doing before school.



Euchre is the most popular card game on campus. Players can be spotted during lunch hours and prep periods in the senior lounge and old cafeteria. Daily tournaments are held every day during fifth hour.

EUCHRE

JOBS FILL AFTER SCHOOL

Kathy Crew and Katie Fitzgerald clown around at MacDonald's.

Bonnie Castagna sorts cards at her job at Summit Stationers.

Janelle Mrowicki models the newest fashion kicks at Thom McAn.

HOURS FOR SOME STUDENTS

Joe Zokal and "friends" hang out at Kaybee.

Jill Urban sells athletic shoes at the Footlocker.

Nancy Hebel looks over bestsellers at her job at Waldenbooks.

Fast food restaurants, grocery stores, paper routes, and shops at the mall are only a few of the many establishments employing our students of L-P.

Working part-time after school and on weekends is not the greatest way to pass the time, but the thought of the upcoming weekend makes the work seems a bit easier.

The majority of students work strictly for spending money. They use it for car insurance, lunch money, gas money, buying clothes, and just having fun.

Freestylers Strut Their Stuff

Bunny hopping, can-can, lefty mover, cherry picker. These unfamiliar terms, are very familiar to fans of freestyling, a relatively new sport to this area. Trix 4 Kicks is the local team comprised mostly of LP students.

A freestyle bike is different from a BMX racing bike in that the components such as brakes, tires, and rims are made stronger so they don't give under strenuous conditions.

Competition at the national level is stiff and a freestyler must be the best to get the needed sponsorship of a bike manufacturer.

Team member and photographer Brian Swain caught Chris Reeland, right, doing a can-can on the Trix 4 Kicks ramp.

They may receive a snicker or two from classmates, but to them it's just a way to communicate their feelings through their clothes.

HIGH SCHOOL: PUTTING THE PIECES TOGETHER

Puzzles are among many methods by which people entertain themselves. When the scrambled pieces are assembled, the picture is complete.

Puzzles are just like high school. New friends and teachers, different classes and clubs, and various sports and dances are some of the things we put together to form our high school years.

Each year we place the pieces together. We create a picture of the activities we take part in to form a unique puzzle called high school.

SPIRIT

L-P's student body displayed their school spirit by participating in four dress-up days chosen by the Student Council for Homecoming Week '86. The week started off with Hawaiian Day, Sports Day, Toga Day, and finally Red-n-Green Spirit Day.

ONCE UPON

The big night finally arrived. The hectic week was coming to an end. After anticipating who would be the Homecoming date, looking for that special outfit, making reservations at that favorite restaurant and picking out flowers, it was time to relax and enjoy the dance.

The theme of "Once Upon a Time" provided the perfect setting for the perfect storybook evening. Couples enjoyed dancing to the music provided by "Ruckus." The decorations, in white and shades of blue, added to the storybook theme. Pictures of the couples were taken in front of a replica of a starlit sky, a perfect momento of a perfect evening.

L-P students are all enjoying an evening of fun and enchantment.

SPORTS

Competitive sports has long been a generator of L-P spirit. Sports is one area that unites students, parents, and fans of La Salle-Peru in striving for excellence.

Whether the athletes take to the fields, courts, or mats, they all aim for the best that they can be.

In this section, the pain and the triumph of all Cavalier sports is captured. Every athlete, no matter the sport, achieves one common goal, to sustain La Salle-Peru's record of excellence.

The 1986 squad put together a 6-3 season while taking second place in the NCIC, Northeast Division, behind the Geneseo Maple Leafs.

SENIORS

As seniors, our high school years are almost over and our lives are just beginning. Ever since we were freshmen, we have looked forward eagerly to graduation day. Now it's almost here and it seems like the past four years went by in a whirlwind of activity.

When we were freshmen, we suffered through the taunting and teasing of the dreaded "upperclassmen." Returning the next year, we all caught the painful but terrific disease, sophomoritis. We were no longer thought of as lowly freshmen, but obnoxious sophomores. Junior year, we recovered from our sophomoritis only to realize that college was just around the corner. We studied frantically for tests and exams to get the grades we needed to be accepted into a good university.

All of that is behind us now and our college careers or jobs are looming ahead. The class of 1987 is still looking forward to our futures and even though we'll leave the school behind, the friendships we made and the knowledge we gained at L-P will stay with us for a long time to come.

ACTIVITIES

With the huge number of activities during an average week at school it was no wonder that students had a hard time finding a happy medium between too much student life and too little studying.

Putting it all together — the time, the work, the responsibility, the studying, the talent — was part of the fun and involvement. Life outside the classroom was more than just doing homework. The traditions lived on in the planning of Spirit Week and Homecoming, the Halloween Dance, the French Club breakfast, and Octoberfest. It was going out for pizza after ball games. It was wrapping Christmas presents for the children's floor of the hospital. It was the caroling at the Mall.

Whether it was just going on a routine Friday night date with friends or playing in the Pep Band or proofing a piece for Impressions, student activities were a definite part of the puzzle.

The Student Council of La Salle-Peru Township High School is the main student legislative and representative body of our school.

Our members are elected from among the students of each class to represent them to our school administrators, faculty members and the school Board of Education when specific problems and different issues of student concern arise.

We are proud of all our accomplishments which we have done for the students of L-P, and just as proud of the accomplishments which our United States Constitution have provided for us. And in conjunction with the 100th Anniversary of the United States Constitution, we have begun constitutional conventions for revampment of our Student Council Constitution, so we may be at better service for you.

We are established because of you and for you.

1986-1987 IMPRESSIONS

The IMPRESSIONS Club compiles L-P's literary (creative writing) magazine. The club staff requests that interested students submit their original poems, short-short stories, short plays, thoughts, cartoons, comic strips, black-and-white photographs, and drawings for the interior and the cover of the magazine.

The staff carefully examines these works and makes semi-final selections. Next, the staff returns the items to the students for revisions. On their return, the IMPRESSIONS staff makes final selections.

Students in the art classes of Mrs. Garrett and Ms. Bednarik read the selections and submit illustrations which might be used to accompany the items. Mrs. Parisot and students of the L-P Area Vocational Center Graphic Arts class print the magazine, which usually comes out in May.

IMPRESSIONS MAGAZINE is partially paid for by the efforts of club members from their fund-raising project.

L-P SPIRIT MACHINE

The SPIRIT MACHINE had a busy year providing spirit to the many students at L-P. They displayed this zest by sounding the famous Victory Bell.

During the year THE MACHINE made signs to drive the player's spirit to an all time high. THE MACHINE presented carnations to senior players at the end of tough seasons of sports.

But THE MACHINE couldn't work unless it had dedicated students behind it!

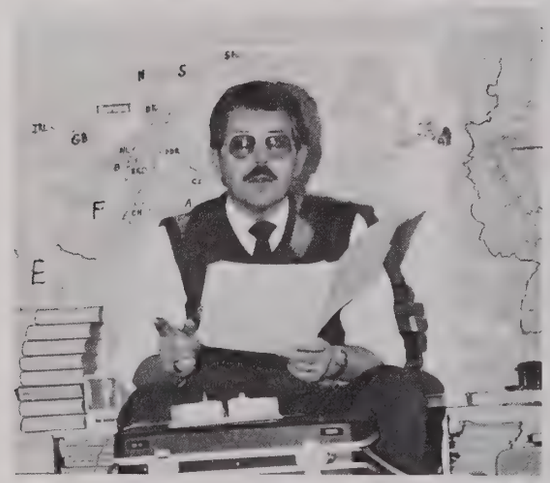
SCHOLASTIC TEAM

"Recall" is the name of this game.

All the members of the Scholastic Team put their minds together to battle the world of trivia.



Mr. Lyon, coach and adviser, keeps the team in tip-top shape.

Scholastic Team members work extra hard in preparing for meets.

The Scholastic Team works on a variety of "trivia" areas such as history, sports and literature.

"This has been a building year for the L-P Scholastic Team," said Mr. Lyon. "We've gained a lot of valuable experience and have gotten involvement from all four classes."

"Onward and upward!"

Team members include Andy Duttlinger, Jay Eich, Joe Kowtko, Bryan Boedigheimer, Tc Stack, Stephan Beyer, Jon Chamlin, Angelique Bedenko, Gina Rossi, DeAnna Pavy, I Janz, Jes Kohr, Tony Pira, Carlos Ernst, George Maxedon, Casey Ray, Ken George, a Mitch Landgraf.

CHESS CLUB

"The game of chess is the touch stone of the intellect."
— Goethe

"If the old chess bug ever bites, the victim is enthralled for keeps." This adage is an apt description for Byron Mitchell, Scott Biolchini and Mr. Pappas as the three players are lost in thought, thinking out the next move.

The able Mr. Pappas can easily play two club members simultaneously.

Though a small group, these members are avid players. Each month the club engages in tournament play, and play as eight-man teams or individuals. Occasionally, the club travels to challenge other schools. This year the membership have battled Peoria, Rockford, Chicago and Ottawa.

ACADEMICS

The focused center of activity at L-P has traditionally been the classroom.

Though sports, extra-curriculars, clubs, and social interplay are vital to well-rounded education, the interaction between teacher and student and between student and student engaged in the learning process is the true heartbeat of L-P.

Administrators, counselors, teachers, and staff are equally committed to maintaining the tradition for excellence in education by offering outstanding programs in all departments in a smoothly organized, and carefully tended environment.

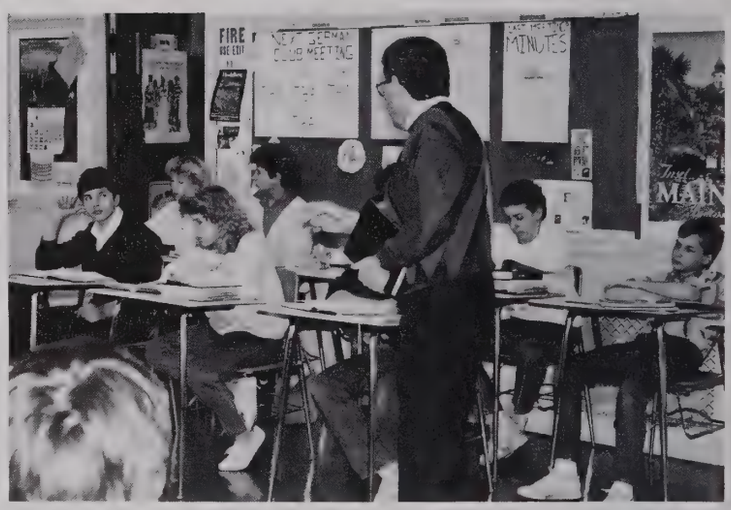
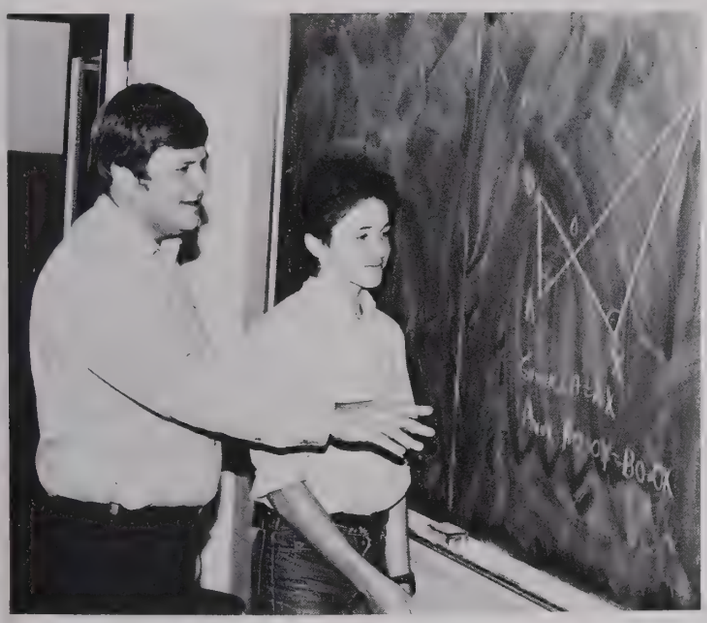
Foreign Languages: Windows to the World

Students are introduced to "foreign languages" by learning to understand, speak, read and write at elementary levels. Subsequent courses in French, German and Spanish sharpen pronounciation skills, broaden sentence structures and vocabularies. Advanced-level courses emphasize oral and written self-expression, conversational fluency and cultural and historical backgrounds.



TOP: Instructors in French, German and Spanish. Seated, Susan Johnson, Mary Sponsler, Eleanor Ryan and Dolores Decaroli, Foreign Language Department chairperson. Standing, Frank Strell and Jack Lyon. ABOVE: Miss Decaroli, surrounded by serapes, a sombrero and pinatas, has led student tours through Mexico on a dozen occasions. ABOVE, RIGHT: Classes in German, and German Club meetings take place in Mr. Lyon's Room 139. RIGHT: Mrs. Johnson guides her students through the language and culture of France.

The Math Department



Mr. Zebron advances the logic of geometry for sophomore Mark Gress.

More than a thousand L-P students were enrolled in some 40 math classes this year, covering 14 different math courses.

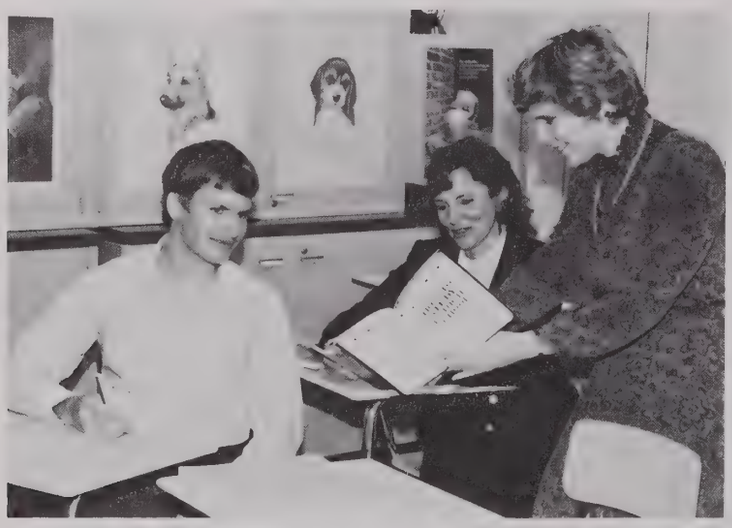
Students interested in careers requiring mathematics can assess their progress and better determine future math course selections from the results of the Illinois University Test of College Preparatory Mathematics offered regularly.

Math students are encouraged to qualify and compete in national math contests.

There seems to be unity in the axiom that math instructors are Number One. From left, the Mathematics Department staff: Lincoln Frost, department chairman; Don Wojciechowski, James Brennan, Wayne Zebron, William Frauens, Everett Taylor, Chesley Jacobs and James Greening.

English Educators

TOP: Instructors in the English Department include, seated, Robert Manahan, Mary Ellen Evers, division chairperson; Elizabeth Fontana, Byron Pappas, Marjorie Verplaetse, department chairperson; Richard Bianchi. Standing, Susan Kosciewicz, Patrick Weber, Lois Allen, Joe Vasquez, Jerry Panizzi, Harriette Gillespie, Jack Lyon, James Loebach, Robert Quick.



Mrs. Kosciewicz discusses study skills with Richard Hofmann and his mother. In October, the English Department sponsored several meetings of teachers, parents, and students to discuss the techniques of effective study. Mrs. Kosiewicz has kept in touch with the group throughout the school year to follow through on skills development.

Mrs. Verplaetse shares a pomegranate with her Humanities class. Once a year in this honors class, teacher and students alike dress in the classical costume of the toga and share cultural experiences.

The Social Scientists

ABOVE: Eight L-P upperclassmen were "elected" by classmembers to county "offices" for La Salle County Government Day. They are, seated, Beth Pyszka, Diane Balconi, Sonnie Ryba, Andi Richards. Standing, Lloyd Curry, Bob Mitchell, Tom Henson, and Doug Jaraczewski.
BELOW: This is the Social Science Department. Seated, Eleanor Ryan, Bonnie Lewis, and student teacher, Kim Wendt, Western Illinois U. Standing, Allen Swanson, William Johnson, Ronald Bird, department chairman; Joseph Skibinski, Dennis O'Keefe and Anthony Innis.

PEOPLE are the VIP's of the Social Science Department — their economics, their government, history, cultures and geography. PEOPLE are studied and viewed through the impact of their governments: democracy, monarchy, dictatorship, socialism, communism, and capitalism. PEOPLE are studies in individual and group behavior.

Driver Education

These instructors prepare sophomore students for their blue-tickets and Illinois Drivers Licenses. They are Huby Sarver, George Weber, and Anthony Innis.

A bank of new ultra-modern "simulators" are in place this year to provide realistic sessions for students to practice their driving skills.

P.E.

ABOVE: Physical Education instructors include, seated, Mary Stockley, Bonnie Lewis, Kris Johnson, P.E. Department chairperson, and Judy Terando. Standing, Oliver Turchi, Mark Siebert and Mike Kasap.
LEFT: Freshmen enjoy a spirited game of basketball, one of many team and individual sports activities provided for P.E. students.

Physical Education is important for everyone.

And, whether your favorite activity is swimming, aerobics, tennis, basketball, weight lifting, softball, track, soccer, archery, badminton or just physical-fitness, L-P's P.E. program provides it for you.

Students get a chance to experience all types of physical activity.

Business Education

Business Education courses are provided to enable students to take some positive steps toward future successes. Typing, Consumers Education, Data Processing, Record Keeping, Accounting, Business Law and Introduction to Business are courses designed to spell the difference.

ABOVE: The Business Education Department is staffed by, seated, Joyce Vulcani, department head, and Sharon Broers. Standing, Thomas Peterson, John Pilarek, Patrick Weber and William Martuzzo.

As demonstrated by Lesley Bernard and Sandy Walker in the foreground, computers are used widely in the Business Department. Computer techniques are taught in such courses as accounting besides the basic classes of data-processing, literacy, programming and word processing.

Guest speaker from Robert Morris College discussing the business school with some L-P students.

Industrial Education

The new "Illinois Plan" has become a model for future Industrial Education courses — using high-tech images and information to match society's dependency on emerging technologies, and how careers will revolve around them. The "Plan" courses will also satisfy some of the science and math requirements mandated by the State Board of Education.

TOP: Industrial Education teachers are, seated, John Pigati, department chairman; Anthony Ajster, Donald Houde, Ronald Hillstrom. Standing, Ronald Olson, Wayne Zebron, John Bangert, Wanda Jensen, and Debra Parisot.
ABOVE: Woods students work independently on their projects and Mr. Hillstrom visits with parents and students during L-P NOW Open House in October, 1986.

Science Department

The L-P Science staff leads its students through a broad and total range of study. Beginning with survey, basic and introductory courses, there are more than a dozen offerings in regular and honors classes in physical science, biology, chemistry, physics and physiography.

"Terminal" science study, or a structured series of college-prep courses are optional.

TOP: Science instructors. Linda Pierce, Marvin Getty, David Jordal, Ronald Burdon, Peter Navin, department chairman; Charles Sheaff and Lawrence Hoover.
ABOVE: A quartet of "Dippy Birds," which appear to take-a-drink automatically, explain the properties of evaporation and vacuum.
RIGHT: Mr. Getty introduces Carrie Pilarek to the "scientific method" in his lab-oriented course, which deals with major concepts of science.

The arts of sight and sound

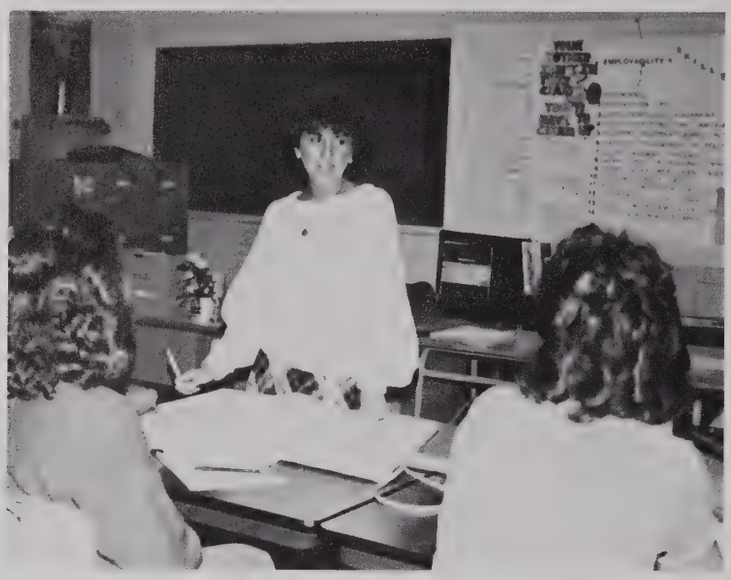
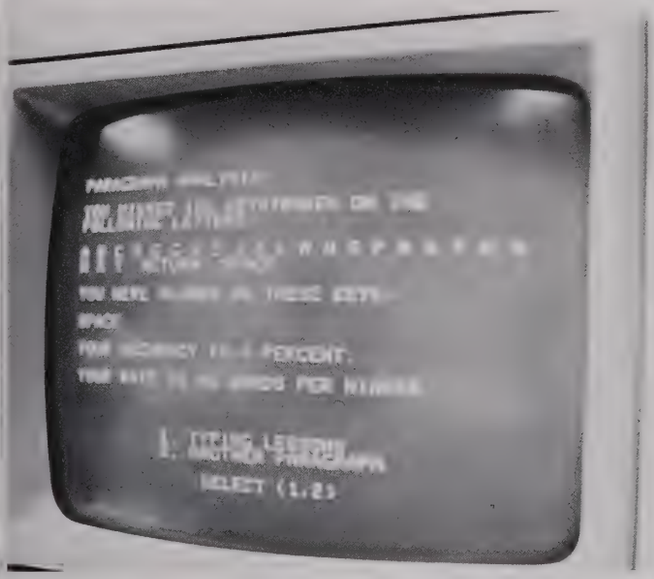
Home Ec — A Tool For Life!



Whether testing a self-made edible creation, tending to the needs of an ill patient, tearing out seams and reparing a fashion outfit, the Health Occupations and Home Economics Department is there to provide a student with the aid they need to become that cook, nurse, or seamstress they may desire to be.

Top Left: Mrs. Marzetta discusses a lesson with her Health Occupations Class.
Top Right: Home Ec students practice setting tables.
Above: L-R: Susan Roos-Rickels (Foods), Sharon Marzetta (Health Occupations), Maripat Zehr (Dept. Chairperson).

Reinforcing The Curriculum — The Library Staff



If it's time for that annual research project and you need those ever so important resources to help you, or you just have time to relax and enjoy a filmstrip on a popular subject, the library and Audio-Visual department are there to help a student in such cases. The librarians provide a student with the necessary help in finding that right book and Mr. Steger aids you with the Audio-Visual necessities. The library is an important factor in the academic life of a student.

JUNIORS

The Class of 1988! It seems like only yesterday when we walked through LP's doors — some scared and some ready to take on the challenge of high school. Now we are ready to take over as next year's Senior Class. Hopefully we will be ready to face new fears and challenges.

What am I gonna do with my life? Most Juniors are asking themselves this difficult question. After taking their ACT and SAT tests comes the time when they must begin to seriously plan their future. What college to attend? What if I can't get the scholarship? How will I be able to afford college? Most of the Juniors have part-time jobs and are gradually saving for college.

The Junior Class made this year memorable from the first day of school to the last with friends, parties, and plans for the future.

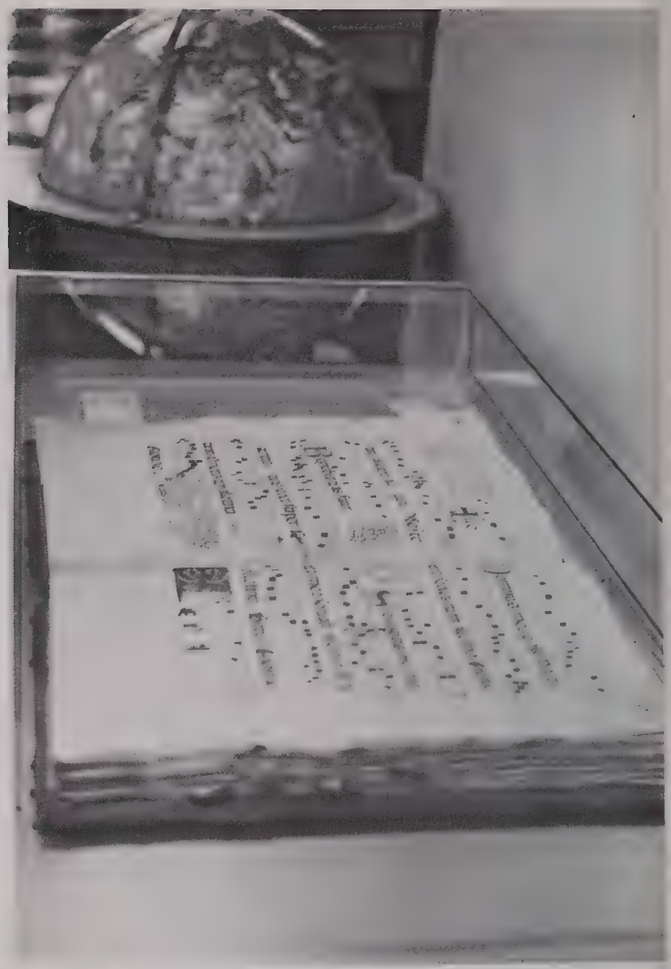
THE McCORMACK LIBRARY

Muffled by thick walls and monitored by watchful librarians, the noise of the classroom and frolic of the halls are lost in the quiet serenity of the library. Here, as in no place else in the school, a student may lose himself to a world of books and study and art. Everywhere treasures hang from the walls or rest in cases, available to the eye and imagination. The library offers a stately repose to the serious student.



In the library are two magnificent original canvasses by Francesco Solimena (1657-1747) entitled "The Easter Sacrifice" and "The Sacrifice of Abraham." These paintings are from the chapel of the Istori family in Montepuliciano, Tuscany. They were purchased in Italy and were presented to the school by Mr. George P. Blow. Pictured above is "The Sacrifice of Abraham."

Though working at the same table, Andy Reynolds and Mike Edgcomb are miles apart as each is engrossed in reading.

Jill Skibinski, seated in "Santa's Chair", and her date for the evening, Sam Samolinski, pose for the camera at the dance.

This year's Christmas Dance was a spectacular event. Sponsored by the Student Council, with music provided by Justus, the dance was a huge success. A Merry Christmas was had by all, and all had a wonderful night.

Dancers sway to the music in anticipation of seasonal festivities. The next day officially begins Christmas vacation.
